

## Bibliography:

Andrews, D.G. (2000). *An Introduction to Atmospheric Physics*, D. G. Andrews, Cambridge University Press.

Climate Change Science Program (2003). Strategic Plan for the U.S. Climate Change Science Program. A report by the Climate Change Science Program and the Subcommittee on Global Change Research, July 2003.  
<http://www.climatechange.gov/Library/stratplan2003/default.htm>.

Courtier, P., et al. (1994). A strategy for operational implementation of 4D-var, using an incremental approach. *Q. J. R. Meteorol. Soc.*, **120**, 1367-1387.

Daley, R. (1991). *Atmospheric Data Analysis*, R. Daley, Cambridge University Press.

Durrant, D.R. (1999). *Numerical Methods for Wave Equations in Geophysical Fluid Dynamics*. Springer-Verlag, New York.

Elbern, H., et al. (1997). Variational data assimilation for tropospheric chemistry modelling. *J. Geophys. Res.*, **102**, 15967-15985.

Errera, Q., and D. Fonteyn (2001). Four-dimensional variational chemical data assimilation of CRISTA stratospheric measurements. *J. Geophys. Res.*, **106**, 12253-12265.

Eskes, H.J. (2003). Stratospheric ozone: satellite observations, data assimilation and forecasts. Paper presented in *Workshop on Recent developments in data assimilation for atmosphere and ocean*. ECMWF, Reading, UK. <http://www.ecmwf.int>.

Eskes, H.J., et al. (2003). Assimilation of GOME total-ozone satellite observations in a three-dimensional tracer-transport model. *Q. J. R. Meteorol. Soc.*, **129**, 1663-1681.

Geer, A.J., et al., R., 2005. Assimilation of stratospheric ozone from MIPAS into a global general circulation model: the September 2002 vortex split. *Q. J. R. Meteorol. Soc.*, in press.

Haltiner, G.J., and T.R. Williams (1980). *Numerical Prediction and Dynamic Meteorology*. John Wiley & Sons, New York.

IGACO, 2004. The Changing Atmosphere. An Integrated Global Atmospheric Chemistry Observation theme for the IGOS partnership. ESA SP-1282, WMO TD No. 1235, September 2004. Available from: [http://www-loa.univ-lille1.fr/~boucher/preprints/IGOS\\_IGACO\\_5.pdf](http://www-loa.univ-lille1.fr/~boucher/preprints/IGOS_IGACO_5.pdf).

Kalnay, E., 2003: *Atmospheric Modeling, Data Assimilation and Predictability*. CUP, Cambridge.

Khattatov, B.V., et al. (1999). Assimilation of photochemically active species and a case analysis of UARS data. *J. Geophys. Res.*, **104**, 18715-18737.

Lahoz, W.A., et al., 2005: An Observing System Simulation Experiment to evaluate the scientific merit of wind and ozone measurements from the future SWIFT instrument. *Q. J. R. Meteorol. Soc.*, **131**, 503-523..

Lorenc, A.C. (2003). Relative merits of 4d-var and ensemble Kalman filter. Paper presented in *Workshop on Recent developments in data assimilation for atmosphere and ocean*. ECMWF, Reading, UK. <http://www.ecmwf.int>.

Lorenc, A.C. (2003). The potential of the ensemble Kalman filter for NWP: A comparison with 4D-Var. *Q. J. R. Meteorol. Soc.*, **129**, 3183-3204.

NATO ASI, 2003: *Data Assimilation for the Earth System*, Eds. R. Swinbank, V. Shutyaev and W.A. Lahoz. Kluwer.

Rodgers, C.D., 2001: *Inverse Methods for Atmospheric Sounding*. World Scientific.

Stratospheric Processes and their Role in Climate (SPARC) (2000). SPARC Assessment of upper tropospheric and lower stratospheric water vapour. WCRP-113, WMO/TD No. 1043, SPARC Report No. 2, eds D. Kley, J.M. Russell III and C. Phillips.

Struthers, H., et al., 2002: Assimilation of ozone profiles and total column measurements into a global General Circulation Model. *J. Geophys. Res.*, **107**, 10.1029/2001JD000957.

Swinbank, R., and A. O'Neill (1994a). A stratosphere-troposphere data assimilation system. *Mon. Weather Rev.*, **122**, 686-702.

Tarantola, A. (1987). *Inverse Problem Theory*, A. Tarantola, Elsevier.

Thépaut, J.-N. (2003). Satellite data assimilation overview. Paper presented in *Workshop on Recent developments in data assimilation for atmosphere and ocean*. ECMWF, Reading, UK. <http://www.ecmwf.int>.
